#### **CRITERION I – CURRICULAR ASPECTS**

##### **1.1 – Curriculum Planning and Implementation**

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Gopal Chandra memorial College of Education is a Co-educational Government Aided college. The College is Under West Bengal university of Teachers' Training educational Planning and Administration and follow the Curriculum prescribed by the mention university. The B. Ed. Curriculum prescribed by WBUTTEPA, Kolkata, follows NCTE norms, pattern and it aims to develop professional competency, skills through curriculum transaction. Teaching and non-teaching both faculties actively engaged in curriculum transaction. Curriculum has two important parts, Academic and Co-curricular. Both are important for holistic development of personality. Academic and co-curricular both are run simultaneously. Academic Portion covers a huge area of any curriculum. As the course continue through face to face mode, so there are a lot of options in interactions among the pupils and teachers. At the present time, considering the technological development and upliftment of internet technology faculties are use different methods and technique to deliver the lecture. All faculties are efficient about the use of different teaching-

learning platforms. Faculties use LMS (Google classroom) for interaction, evaluation and study materials. Faculties use PPTs during teaching learning. The B.Ed. curriculum has two parts - theory and practical. For the theoretical portion teachers arranged different activities, seminar, and Interaction time. The practice of practical portion conducts very effectively. Practical works done within college and outside the college. College prepares an academic calendar to run the academic and co-curricular activities smoothly through the year. College also conducts Test Exam to measure students' progress. The institute also organises different seminars and programmes in topics of value education, topics related to inclusive education, life skill education etc. to encourage student-teachers for values, inclusive education etc. Co-curricular activities are widely practiced in college. Indoor and outdoor games are continuing throughout the year. Sports day and different cultural programmes celebrated in the college. During Pandemic (from March, 2020), all academic activities were shifted to the online mode. Different platforms were used (Google meet, Zoom) for teaching learning. Teachers used Google classroom for support the learners and all the co-curricular activities were stopped due to pandemic.

In our institution (GCM college), mentoring system has been practiced from past, for establishing a better and effective relationship between student and teacher and also continuously monitor, Council and guide students in educational and personal matter. All teachers work as mentors for students allotted to them. The students must feel too confident in their mentors. This is a continuous process till the end of academic year of student. Aim of student mentorship is – 1. To enhance teacher – student relationship. 2. To enhance student's academic performance and attendance. 4. To monitor the student's regularity and discipline. 5. To enable the parents to know about the performance of regularity of wards. The IQAC and academic council has taken the initiative of implementing the mentoring of students. Students are based on the streams of studies and also according to their core subjects (Method Subjects). They are divided into groups of 6-7 students. Mentors maintain and update the mentoring format after collecting all necessary information. Mentors are expected to offer guidance and counselling as and when they required. It is the practice of mentors to meet students individually or in groups. In isolated cases parents are called for counselling and their special meeting with the principal at the suggestion of the mentor. If a student is identified as having weakness in particular subject, it is duty of mentor to apprise the concerned subject teacher. Type of mentoring done in our institution are-- 1. ## 7.2 – Best Practices

### 7.2.1 – Describe at least two institutional best practices

1. **Assembly:** Every day in our college assembly is organized at 11:00 a.m. All teachers and students sing national anthem. The main intention of the college assembly is to develop a feeling of unity among all the students and teacher. To inform the students about daily activities and program more clearly. To develop in students about the sense of identity in the college. To give an insight of experiential moments with anecdotes and stories and co-curricular activities. To motivate the students with appreciation, rewards, and accolades on performing well in academics and curricular activities.

2. **News paper reading everyday at college:** At the time of prayer in college, various news such as educational news, world news, politics, economy, sports, business, industry, trade and commerce etc. are serviced by two students and it continues according to their college roll number every day. And they write thought of the day on whiteboard. It's useful to stay updated on news items as they unfold. By reading newspaper on a daily basis, you're better equipped to form opinions on things that are currently happening, and you're also likelier to be prepared if a world event has a direct impact on your life. Reading newspaper is a good habit that can provide a great sense of educational value. The students service various exams news like AIIMS, UPSC, admissions in various universities, exam results. A no. of sporting events is organized from time to time in the country

across the nations. One can get all information about the list of players, which game is going on currently, medals tally, players ranking, who won which medal, the winners the competitors, etc. These types of news are serviced by our students. They service the news about what's currently happening in the world, the news could involve matters of high consequence, such as war, climate, the economy and national elections, or topics that are arguably more trivial, such as political sex scandals, celebrity gossip and debates on minor issues. They tell about everyday temperature and humidity level and any other weather report like rain. They write thought of the day on whiteboard and everyone read it such as "Many of the economic challenges we face today stem from the neglect of supply side policies over the past decade or more"-Agustin Carstens.

3. Exhibition on teaching-learning materials: The exhibition on teaching-learning materials took place every year in our college. The students are taught to create low cost teaching learning material (TLM) by teacher educator in teaching-learning process. Papers, thermocol, cardboard, Plastic, Plaster of Paris and any other relevant materials are basically raw materials for making TLM. After completion, the students are trying to make low cost TLM according to their subject and lesson. There are eight method subjects in our college as Bengali, English, Mathematics, Physical Science, Life Science, History, Geography and Education. Each student make TLM which are useful in schools in their respective subject such the students of Mathematics make models and charts on the content of arithmetic, algebra, geometry, trigonometry, mensuration. Same for other subjects the students make different types of TLM according to their subject. On the day of exhibition the students demonstrate their TLM and explain how to prepare it, how to use it and what is the importance of it in school education. The teacher educators, students and other visitors see the exhibition on teaching learning material.

4. Campus cleaning program: Gopal Chandra Memorial College of Education has organized a Clean Campus campaign in the session-2019-2020 to educate and to promote civic sense among students community. Students were advised not to throw paper plates, water bottle, paper cups, tissues, and many unwanted things on campus Lawns, Library, cafeteria, umbrella canteen, garden, sitting Area, corridors, class rooms, pathway and other open areas which is very unhygienic to all of us. They were also informed to make the college campus class rooms a beautiful place for one and it makes individuals healthier when the environment around them is healthy.

5. Arrangement of a picnic: Our College has organized a outreach program as picnic in the session-2019-2020. Picnics give us an opportunity to escape from the daily routine and help us open up more with respect to our feelings albeit in a relaxed atmosphere. Picnics are great for sharing problems/issues the students may be facing at college or in life. They offer a relaxed atmosphere in which to listen and collectively come up with solutions to tackle the problem.

6. Cultural programs: Our College has organized various cultural programs such as fresher welcome, farewell, celebration of Holi, Puja Agamani etc. The cultural activities enhance the confidence level of the students thereby allowing them to perform better. These activities develop the personality of the students and assist them in shaping a good career. In fact, students can also leverage the advantage of participating in various activities.

7. Distribution of fruits among patients in hospital: Every year our college distributes fruits among the patients in BC Roy General Hospital and Maternity, New Barrackpore. The vision of the practice is to help hospital patients, to build up values among students, to increase cooperative mentality by helping needy peoples.

8. Use of separate dustbin for organic and inorganic waste: The teachers, students and other staff in our college use separate dustbin for organic and inorganic waste. Inorganic matters only take little to no effect from microorganisms in the decomposition process. That's why they take a very long time to disintegrate. Meanwhile, organic materials are biodegradable. It means that they are capable of being decomposed by bacteria or other living organisms so they can decay. Some examples of inorganic waste

are aluminum cans, spoons, plastics, and glass. And a few instances of organic waste are paper, cardboard, and food remains. While organic waste is relatively safer to the environment and easier to dispose of, inorganic waste takes forever to decay so disposing of it can be a challenge. That's why the best thing to do is to reduce, reuse, and recycle. While the triad has become a somewhat overused slogan, it is still the way to go if you want to help save the planet. 9. Teacher's Diary: All teacher educators maintain daily Teacher's Diary where they mention time of arrival in college with their signature, no. of classes allotted, no. of classes taken and time of departure from college with signature. 10. Biometric Attendance Machine: All teaching and non-teaching staff of our college registers everyday to mark their attendance by biometric fingerprint attendance machine.

### 7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

Recognizing its privileged position as a premier institute of higher learning, Gopal Chandra Memorial College of Education makes consistent efforts in fulfilling its social responsibility toward poor people. When you are the reason of someone's happy, it is a wonderful moment and great achievement for you. The college authorities, staff and students believe that the true essence of empowerment lies in creating sustained forms of emancipation by generating lasting opportunities. An awareness of the plight of the marginalized and under-represented is the antidote to the forces of self-centered gratification so prevalent in our consumerist generation. The outreach aimed to highlight that education and independent thought are the most effective means of breaking down "narrow domestic walls" (Tagore). Name of the event: Distribution of fruits among the patients in hospital Vision: The vision of the event is to help hospital patients, to build up values among students, to increase cooperative mentality of students by helping needy peoples. Place of event: BC Roy General Hospital and Maternity, New Barrackpore. It is placed 2 km. away from our college. Particulars of the event: Every year at 26th January, the Republic day of India, students and teachers of the college distributes fruits (apple, banana, orange etc.) among the patients in BC Roy General Hospital and Maternity, New Barrackpore. It is very importance for community development. This type of Outreach programs is beneficial not only by providing the students an academic foundation but also to develop their self-confidence, leadership qualities, and their responsibilities toward the community.
